Partnership Across Languages (PAL) and
Center for Educational Resources in
Culture, Language and Literacy (CERCLL)
Announce a Language Acquisition Summer
Workshop for
World Language Educators

The presenter will involve participants in a variety of communicative strategies that will help to lift texts from the rather distancing medium of the printed page into the light of real life and significant language acquisition. These are strategies that can be adjusted to any level of language acquisition and can be taken to class on Monday morning. We will work with several texts including poetry, story, drama, and film. Participants will also produce their own texts, and they will be encouraged to share ideas and voice challenges.

Presented by Natalie Hess

Dr. Hess is a professor of Bilingual/
Multicultural Education at NAU-Yuma.
